

Prosthetic Solutions Workflow

THE CLIENT SENDS TO MILLING CENTER:

- **Send .stl file inside a zipped folder or analog imprint**
(in the case of the analog imprint, book the material pickup at jdlab@jdentalcare.com or on WhatsApp at +39 333 180 9487)

THE MILLING CENTER PREPARES:

- **Case registration**
- **CAD design according to clinical indications**
If the file is already designed: it is validated and sent directly to production for making the semi-finished product.

THE CUSTOMER APPROVES THE DESIGN:

THE MILLING CENTER PREPARES:

- **Production and finalization on Zirconia or Composite**
- **Production of unfinished semi-finished product**

THE CUSTOMER RECEIVES THE FINAL WORK

In full arch on implants there is a Jig test (included in the price) of passivation, aesthetics and finalization
